**Attach Additional Sheets as Required**

**Cooperative Representative:** \_\_\_\_\_ **Date:** \_\_\_\_\_ **Total = \$** \_\_\_\_\_  
 I certify that the incentive payments requested are for equipment installed at the member's site in the last 12 months.

**Note:** A copy of the member's receipt indicating type of equipment, quantity and purchase price is required. The incentives listed above are the maximum available rebate. Total rebates limited to \$100,000 per project. See the Energy Efficiency Programs document for more information. Actual rebates will not exceed 50% of the documented equipment (fixture and lamps) purchase price. If the member previously received a rebate for a fluorescent light fixture, the replacement of that fixture is not eligible for a rebate until the life of that fixture has expired. However, the replacement of the fluorescent lamps with LED tubes in those fixtures (re-lamping) may be eligible for a custom rebate. Contact your cooperative to determine fixture and lamp life and for additional details. This program is subject to cancellation without notice. Submit rebates over \$5,000.00 to your Cooperative on a Lighting Information sheet prior to installation in order to assure the maximum rebate. Applications for rebates must be submitted within 90 days of installation. Rebate checks will be issued

**Member's Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_ **Phone:** \_\_\_\_\_  
 I certify that the incentive payments requested are for equipment installed at address listed above, and agree to the noted terms above.
