

There is power in our power. As a member of Butler County REC, you are one of 42 million people served by cooperatives. Co-ops power over 22 million businesses, homes, schools, and farms in 48 states. As not-for-profit organizations, collectively we return more than \$1 billion to our member-consumers annually.

830 distribution cooperatives are the foundation of the electric cooperative network. We were built by and serve co-op members in our communities by delivering electricity and other services.

64 generation and transmission cooperatives provide wholesale power to distribution co-ops through their own electric generation facilities or by purchasing power on behalf of the distribution members.

Butler County REC, over 5,100 members strong, is proud to serve you and your family.
